Fayetteville, GA: Creatively-driven community development [Pinewood Forest](#), [Piedmont Fayette Hospital](#) and boutique real estate firm [Pace Lynch Corporation](#) are on the heels of celebrating a project milestone in the construction of the Piedmont Wellness Center, a 60,000 SF two-story health and wellness facility. In collaboration between the three teams, the final steel beam of the Piedmont Wellness Center at Pinewood Forest was placed on the center during a topping out ceremony on Friday, November 16.

“Placing the last structural beam on the Piedmont Wellness Center is truly a symbolic milestone for our Pinewood Forest team,” said Rob Parker, President of Pinewood Forest. “We are moving towards an era of innovation; one that advocates for and provides preventative medicine solutions to our residents and guests. With the help of many, the Piedmont Wellness Center, as well as Pinewood Forest as a whole, has come so far. We hope that future developments look to Pinewood Forest as a shining example of what a health-minded, creative community can look like.”

The medically-integrated wellness center will serve as a bridge between medical care and wellness for the residents and guests of the Pinewood Forest community. In addition to the six-lane lap pool and therapy pool, the Piedmont Wellness center will hold multiple fitness studios, an active gaming component, a spin room, 18,000 SF of fitness space on two floors and a licensed D1 Sports Training program, a first for the state of Georgia. Memberships to the Piedmont Fayette Wellness Center at Pinewood Forest will be open to the public with access to the outpatient rehab/healthcare services by appointment. Although details are not final, Pinewood Forest anticipates bundling a membership to the wellness center with a home purchase.

“We’re so appreciative of all of the hard work that has been done on this project thus far and we’re very excited about what’s to come,” said Michael Burnett, Piedmont Fayette’s Chief Executive Officer. “The Piedmont Wellness Center at Pinewood Forest is going to make a positive difference in the lives of many people in this community and we’re proud to play a role in their wellness journeys.”

The Piedmont Wellness Center at Pinewood Forest is scheduled to open to the public in late 2019. Interviews are available upon request. Photos of the topping out ceremony can be accessed [here](#) with photo credit to be provided to Christopher Fairchild.

About Pinewood Forest:

Pinewood Forest is a 235-acre master planned residential and mixed-use development located in south metro Atlanta, Georgia, adjacent to Pinewood Atlanta Studios.
