SAVANNAH, GA: Steps away from highly acclaimed River Street, **Savannah Marriott Riverfront** is conveniently located in downtown Savannah, overlooking the historic riverfront. Impeccable views of Savannah River draw travelers to the under-renovation hotel, where a guest-focused vision has been put into motion with a major revamp of the hotel's more than 387 guest rooms and public spaces.

Freshly redesigned, rooms now feature soothing grey tones and crisp clean lines throughout, a brighter, more open floor plan furnished with low-profile platform beds complemented by luxury bedding and picturesque city and riverfront views. Plenty of comfortable seating is available throughout the hotel's 46 suites, Junior Suites offer Queen-sized pull out beds while spacious seating areas can also be found in Executive and Hospitality Suites. Boasting streamlined walk-in showers and bathroom amenities, state of the art flat screen televisions, an in room coffee station, modern and flexible work space and a plethora of storage, guest rooms have transformed into an area of discovery, relaxation and productivity rather than a place to simply rest.

"As Savannah's only Marriott hotel located on the river, this multi-phase renovation is intended to re-energize hotel appeal to locals as well as those visiting both for business and leisure," explained Jody McIntyre, Director of Sales and Marketing. "By updating technology, modernizing amenities and refining our design, we hope to emulate the sophistication that is Savannah while reinventing a city classic."

Inspired by Savannah's distinguished architecture, history, and reputation for Southern charm and hospitality, this transformation extends beyond guest rooms. From the Great Room Restaurant and Bar to the meeting space and lower lobby, the Savannah Marriott Riverfront renovations are poised to set new standards in hospitality.
